

Thank you for choosing us to repair your home. We know you have a lot of options when it comes to choosing a contractor.

We hope you are satisfied with your roofing project. Please reference this checklist for items that will occur after your install.

What should you do immediately after your roof installation?

LOOK FOR NAILS

While our crew members do their best to go through the yard with a magnet afterward to pick up as many as they can, it is nearly impossible to get every single one. Please be careful after the project is complete and keep your eye out for any strays. If you are finding an unacceptable amount of debris in the yard, please let us know; we'd be more than happy to swing by and clean up for you.

CHECK YOUR SATELLITE RECEPTION

If we are working on your roof & you have a satellite, we will need to detach and reset it. The roofers will do their best to put it back exactly how you had it, but sometimes the signal doesn't come back and the cable company has to come out and fix it. If this happens, call the cable company and we will reimburse you for the service call. Be sure to keep your receipt!

RESTORATION CHECKLIST

AFTER YOUR INSTALL

What do you need to know after your roof installation?

QUALITY CONTROL

After your project is finished, a manager will come by to check the work to ensure the quality and correctness of the installation.

LEFTOVER MATERIALS

We always order more materials than we need on a job because it is better to have some leftover than not enough, as it can delay projects by a couple days or more. Any leftovers will be picked up by our company after the completion of the project.

INSURANCE SUPPLEMENTS

These are items that were required for your install, but which were not covered on your original insurance estimate for various reasons. These will appear on your invoice if your insurance carrier approved the additional coverage.

FINAL PAYMENT

Once materials have been installed, we will be billing your insurance company (if your install is part of a claim we worked with you on). We will do all within our ability to confirm the release of final payment to you from your insurance company, but once in a while we have to ask our homeowners to follow up with the insurance companies about this. Once we are fairly certain that funds have been sent, or when an insurance company is not involved and materials are installed, we will email an invoice to you. At that time, we will want to arrange final payment.
