

Thank you for choosing us to repair your home. We know you have a lot of options when it comes to choosing a contractor.

In an effort to make your home restoration as smooth as possible for you, we have compiled this checklist to help you prep for your home restoration project:

## What should you do to prepare for your roof installation?

### **MOVE OUTDOOR FURNITURE**

Please move any lawn furniture, yard art, or grills away from the side of the house to protect it from debris during construction. We don't want to damage anything.

### **REMOVE INTERIOR ITEMS**

If we are installing new roofing on your garage, please remove all vehicles, valuables that are on the interior walls, and anything that may be hanging from the ceiling.

### **MOVE YOUR CAR**

Be sure to park on the street the night before so you don't get trapped in the garage during construction.

### **TELL YOUR NEIGHBORS**

Please let your neighbors to the left and right know that you will be having upcoming construction on your house to prepare them for any noise or in case they need to move their vehicles.

## RESTORATION CHECKLIST

# **BEFORE YOUR INSTALL**

Your satisfaction is our #1 priority. We want this to be a painless process for you with as few inconveniences as possible.

## KEEP IN MIND:

### **Scheduling Can Change.**

We will provide you with a date and time-frame when you can expect your project to be scheduled, but please be flexible. There are countless extenuating circumstances that can affect the schedule: inclement weather, surprises on the job before yours, material delay, and crew emergencies, etc. We will do our best to keep you up-to-date with schedule changes along the way.

### **Material Delivery.**

In most cases, your new material will be delivered the day before the scheduled installation.

### **Job Timeline.**

In most cases, your project will take no more than 1-2 days to complete, but this cannot be guaranteed.

### **Early and Noisy.**

The crews can start as early as 7 a.m. & demolition and construction will be noisy. You do not have to be home for the work to be done.

### **Plants may be Damaged.**

Our crews will do their best to protect landscaping immediately around the house, but unfortunately plants cannot be temporarily moved like lawn chairs or grills. We apologize in advance if any shrubs lose a branch or any flowers get damaged.
